Salam Sir,

I hope this email finds you well. Before I share my story with you, I would like to do so. My name is Myat Min Khant (AIU 23102103). Unfortunately, I failed machine learning last semester (year 2, semester 2). In the upcoming first semester of the final year (the last semester before the internship), I need to take the deep learning subject, which requires me to take machine learning as a prerequisite subject for it. So, I would like to get advice on how I should approach this problem, such as whether I should take machine learning in the upcoming semester or if I am allowed to take it in the current semester. My academic advisor, Prof. Dr. Khalid, suggested that I meet with you and discuss it. Thus, could you please give me a few times to meet for this matter?

Thanks for giving me precious time to read this email, and I will be waiting for your reply.

Sincerely,  
Myat Min Khant (AIU 23102103).
